cat Summary

I'm currently a Backend Developer and QA Analyst, with 2 year's experience, at LOBA.cx.
As an IT professional, I developed numerous services and API's as well as websites and
platforms for multiple clients or indoor projects.
Funny human being with will to improve his skills.

cat Experience

LOBA.cx Aveiro	Quality Assurance Analyst	01/01/2019 – At the moment

In 2019, I accumulated the QA Analyst role to my current role (Backend Developer). In this role, I was responsible to validate/approve every software solution before it gets online.
- ➢ Maintain the project overall quality
- ➢ Validate every feature described inside the product documentation
- ➢ Write automated tests with Selenium and PHPunit

LOBA.cx Aveiro	Backend Developer	14/02/2018 – At the moment

In 2018, I joined LOBA as a Backend Developer and I was responsible for the continuous delivery of good software centered in costumer experience and satisfaction.
- ➢ Maintain code quality standards
- ➢ Git as SCM / Bitbucket – Resource Guru
- ➢ Development of webservices and integrations with REST API's

cat Education

Escola Superior Aveiro Norte Aveiro University	Software Development Higher Technical Degree	09/2016 – 07/2018
Instituto Superior Engenharia de Coimbra	Computer Engineering Bachelor's Degree	26/11/2018 – At the moment
